

Date: October 10, 2024 **Location:** Arcadian Court, 401 Bay Street (8th Floor), Toronto, ON (Queen Station)

Agenda

Time	Sessions
------	----------

8:00 - 8:45 a.m. Refreshments & Registration

8:45 - 9:00 a.m. Welcome Remarks from OCC and CPE

Daniel Tisch
*President and Chief Executive Officer
 Ontario Chamber of Commerce*

Timothy Chan, PhD
*Associate Vice-President and Vice-Provost,
 Strategic Initiatives
 University of Toronto*

9:00 - 9:40 a.m. Keynote Fireside Chat: Innovating for Canada: Sustainability and Investment for Smart Growth

Broadband connectivity is a crucial enabler of environmental, social, and economic sustainability. From supporting smart technologies that lower carbon emissions to bridging the digital divide in underserved communities, innovation and investment plays a transformative role in shaping a sustainable future. This keynote fireside chat will explore how Rogers is advancing these efforts by empowering communities to respond to climate change and connecting people across Canada.

Hon. Navdeep Bains
*Chief Corporate Affairs Officer
 Rogers*

Robyn Gray
*Vice-President,
 Clean Infrastructure
 Sussex Strategy Group*

Moderator

9:40 - 9:45 a.m. Introductory Remarks: Future of Transportation Panel Session

Lisa Pierce
*Vice-President,
 Global Sales and Air Canada Vacations
 Air Canada*

Date: October 10, 2024 **Location:** Arcadian Court, 401 Bay Street (8th Floor), Toronto, ON (Queen Station)

Time	Sessions
------	----------

9:45 - 10:30 a.m. *Presented by Air Canada*

Panel Session: Future of Transportation

Decarbonizing transportation systems is vital in the movement of goods and people, a contributor for economic growth. Join us as we explore the role of last-mile connectivity, sustainable aviation, and last-mile delivery in shaping the future of Ontario's sustainable transportation networks.

Jake Brockman

Moderator

10:30 - 10:40 a.m. Health Break

10:40 - 10:45 a.m. *Presented by Hydro One*

Introductory Remarks: Energy Matters Panel Session

Date: October 10, 2024 **Location:** Arcadian Court, 401 Bay Street (8th Floor), Toronto, ON (Queen Station)

Time	Sessions
------	----------

10:45 - 11:35 a.m. *Presented by Hydro One*

Panel Session: Energy Matters

To reach Canada’s net-zero emissions targets by 2050, there will be more reliance on diverse energy sources to meet growing demands. This session will explore challenges, current advancements, and opportunities to adopt innovative and technological infrastructure solutions that strengthen Ontario’s smart energy grid.

Guillaume Paradis
*Chief Operating Officer, Distribution and Generation
Hydro Ottawa*

Andrew Thiele
*Director of Policy and Strategic Initiatives
Bruce Power*

Mike Voll
*Global Sector Leader, Smart Technologies
Stantec*

Ali Hooshyar
*Associate Professor, Electrical and Computer Engineering
University of Toronto*

Moderator

11:35 a.m. - 12:10 p.m.

Fireside Chat

Ontario is leading Canada’s emission reduction efforts, and energy intensive industries are crucial in this transition. In this fireside chat, Ontario’s newly appointed Associate Minister of Energy-Intensive Industries, Hon. Sam Oosterhoff will share the economic opportunities in decarbonizing energy-intensive sectors, the government’s efforts and programs to support industrial decarbonization, and how emerging technologies are paving the way towards a net-zero future.

Hon. Sam Oosterhoff
*Associate Minister of Energy-Intensive Industries
Government of Ontario*

David Sinton
*Academic Director, Climate Positive Energy, and Professor
University of Toronto*

Moderator

12:10 - 1:00 p.m. Lunch

Date: October 10, 2024 **Location:** Arcadian Court, 401 Bay Street (8th Floor), Toronto, ON (Queen Station)

Time	Sessions
------	----------

1:00 - 1:20 p.m.

Presentation: Harnessing Technology for a Greener Tomorrow

Ontario is at the forefront of emerging technology innovation, home to a thriving ecosystem of over 400 fintech organizations and research hubs. This presentation with Deep Sky will showcase how cutting-edge solutions, such as carbon capture technology, are essential to decarbonizing industries and advancing sustainability. Join us as we explore how these innovations hold the key to a sustainable future and have the power to catalyze economic prosperity across all sectors.

Damien Steel
*Chief Executive Officer
Deep Sky*

1:20 - 2:30 p.m.

Table Talks

- | | |
|---|--|
| Table Topic #1: Industry Decarbonization | Table Topic #5: The Circular Economy |
| Table Topic #2: Critical Minerals & EV Supply Chains | Table Topic #6: Greening the Life Sciences Sector |
| Table Topic #3: Smart Grids & Digital Infrastructure | Table Topic #7: Financing the Green Transition |
| Table Topic #4: Building Green | Table Topic #8: Smart Transportation |

2:30 - 2:35 p.m.

Closing Remarks

Daniel Tisch
*President and Chief Executive Officer
Ontario Chamber of Commerce*

2:35 - 3:30 p.m.

Networking Reception
