

CDAP Canada Digital Adoption Program

Grow Your Business Online Guidelines

The maximum grant amount available is \$2,400

Program Overview

Small business is the backbone of Ontario's economy and their success is integral to local economic prosperity and vibrant communities, but the way Canadians do business has changed, and more business is being done online than ever before. In an effort to support business and communities across the province, The Ontario Chamber of Commerce, with the support of Government of Canada has launched The Canada Digital Adoption Program (CDAP) Grow Your Business Online. It has been established to help small and medium-sized enterprises (SMEs) realize their full potential by adopting e-commerce technologies.

Grow Your Business Online

For smaller, consumer-facing businesses, including those in service industries, Grow Your Business Online grants will help SME's adopt e-commerce technologies. In the technological age, it's imperative for consumer-facing businesses to develop and implement e-commerce capabilities to remain competitive locally, regionally and nationally. Digital technologies allow businesses to become more efficient and increase their customer base through the digital marketplace.

Over a three year period (ending March 2025), the CDAP - Grow Your Business Online grant will help over 12,076 small businesses take advantage of e-commerce opportunities. Businesses will be provided with support and advice through our team of E-Commerce Advisors, who can also assist with application completion, information on the range of digital tools available and how to make use of them.

Objectives include:

- Short-term: Canadian small businesses and entrepreneurs, including those in equity deserving groups, have access to programs and services to digitize their businesses.
- Medium-term: Canadian small businesses and entrepreneurs, including those in equity deserving groups, receive support to digitize and develop ecommerce capabilities.
- Long-term: Canadian small businesses and entrepreneurs, including those in equity deserving groups, are able to sustain and grow their businesses.

Non-Eligible Applicants

Ineligible applicants include:

- Corporate chains, franchises, or registered charities
- Representatives of multi-level marketing companies
- Real estate agents and brokerages
- Insurance agents and brokerages
- Mortgage agents and brokerages
- Investment advisors and brokerages
- Not for profit organizations
- Businesses engaging in online reselling or drop-shipping reliant third-party suppliers
- Wholesale or distribution businesses and manufacturers

Note: Geographic distribution of funds will be taken into consideration when making funding decisions. Priority sectors for consideration will include businesses owned by Indigenous People, women, racialized Communities, LGBTQ2+, and persons with disabilities.

Eligible Expenses

The maximum grant amount available is \$2,400

Eligible costs are those that relate to the implementation of e-commerce solutions or the net new cost for improving an existing e-commerce plan, which include:

- Costs related to the implementation or improvement of their digital e-commerce platform (e.g. new plugins or features such as online reservation/booking tools, online ordering system, electronic payments)
- Costs related to the installation of an e-commerce platform (including new subscription fees/costs)

- Costs of back-office software solutions to support an e-commerce strategy (all software must be directly tied to the selling of goods and services online) examples include:
 - Software to track and manage product inventory, as well as fulfill and ship orders
 - Software for product databases
 - Software to track sales, market to customers, offer discounts, establish an e-commerce loyalty program
 - Software to simplify marketing
 - Cyber Security software (e.g. Norton, McAfee, Panda, etc.) to protect customer data
- Costs related to the creation of customer databases
- Cost related to cybersecurity including activities to secure network and privacy of customer data
- Costs of social media advertising (only as part of e-commerce implementation or improvements, not a stand-alone item)*
- Costs related to website search optimization (only as part of e-commerce implementation or improvements, not a stand-alone item)*
- Costs related to hiring a consultant/agency to execute Digital Marketing initiatives related to an e-commerce store (only as part of e-commerce implementation or improvements, not a stand-alone item)*
- 20% of the costs of hardware and related software purchases (including accounting software) which directly support e-commerce implementation up to a maximum of \$480

This amount would then be added to the non- hardware/software amount to arrive at the total grant amount.

For Example:

If you apply for a grant for SEO support of \$1,000, and also apply for reimbursement for a computer plus software in the amount of \$5,000, the computer plus software portion will be calculated at the 20% rate to the maximum allowable amount. Therefore, the total grant would be \$1,480.

All expenses must be tied to the selling of goods and services online, and you will need to clearly outline this in your application.

Costs related to search engine optimization, social media advertising and digital media marketing, cannot be used as a stand-alone expense, individually or any combination of these items. These expense items must be in addition to either the creation of a new e-commerce website (if no previous e-commerce website existed) **OR an eligible improvement to the functionality of your existing e-commerce website or back-office software/hardware solution that ties into your e-commerce website.*
